

Student Name: Shahmeer Shahzad

Reg. No.: FA24-BCS-103

Section: FA24-BCS-A

Assignment Statement:

Difficulty: Foundational · **Covers:** Lectures 3–6 (HTML & HTML5, Semantic HTML and Forms, CSS Fundamentals, the CSS Box Model) · **Folder:** `assignment-1/`

Task: Build a single-page personal CV/résumé as a static HTML + CSS website — no JavaScript, no framework, just semantic HTML5 and hand-written CSS. This is where you prove you actually know the raw building blocks before anything is allowed to hide them from you.

Your page must include, at minimum:

A header with your name, a short professional tagline, and a photo (a placeholder image is fine).

An “About Me” section.

An “Education” section listing your academic history in a semantic list or table.

A “Skills” section.

A “Contact” section with a real `<a href="mailto:...">` link and at least one social/portfolio link.

Correct use of semantic HTML5 elements throughout — `<header>`, `<nav>`, `<main>`, `<section>`, `<article>`, `<footer>` as appropriate, not a page built entirely out of unstyled `<div>`s.

Styling entirely in a separate `styles.css` file (external stylesheet, not inline `style=""` attributes) using the box model correctly — sensible margins, padding, and borders, not everything jammed against everything else.

Deliverables in `assignment-1/`: `index.html`, `styles.css`, any images, and your completion PDF.

Output:

Education

Academic Qualifications & Institutions

Degree / Certificate	Institution	Year	Key Subjects
BS in Computer Science	COMSATS University Islamabad, Lahore Campus	2023 – Present	Data Structures, Database Systems, Computer Networks
A Levels	The Lahore Lyceum School	2021 – 2023	Mathematics, Physics, Chemistry
O Levels	Learning Alliance	2019 – 2021	Mathematics, Physics, Chemistry, ICT, English

Skills

Programming Languages

C / C++ Java Python SQL HTML5 & CSS3

Tools & Environments

Git & GitHub Linux / Bash PostgreSQL Cisco Packet Tracer Wireshark PyTorch Docker

Core Concepts

Data Structures & Algorithms Object-Oriented Programming (OOP) Database Design (ERD & Normalization) Computer Networks Neural Networks Machine Learning

      <h2 class="section-heading">About Me</h2>
      <p>
        I am an undergraduate Computer Science student at COMSATS University
        Islamabad, Lahore Campus.
        My primary academic interests include core data structures,
        algorithms, computer networks, and database design.
      </p>
      <p>
        I enjoy building software from first principles—focusing on clean
        logic, problem-solving, and understanding
        how systems operate under the hood before relying on high-level
        frameworks.
      </p>
